

MDFR CISM

Crisis Response K-9

Health and Safety Division

The Miami Dade Fire Rescue CISM Peer Support Program is utilizing K-9's as the latest tool in its toolbox to combat PTSD and other occupational stressors. K-9's has been shown to have an immediate and long-term benefits and can play an important role in building resiliency and post traumatic growth. Common documented effects of therapy dogs are improved social behavior, interpersonal interactions, improved mood, and a positive effect on stress related parameters such as cortisol, heart rate and blood pressure.
